

I am currently an Over The Road Driver (OTR), and 24 hour weather and traffic reports that XM radio provides is valuable information that keeps me informed about weather, and traffic conditions from state, to state, this information that's provided helps me to plan ahead in case of adverse weather, and traffic conditions. I as well as hundreds of over the road drivers need this info on a daily basis, and besides its not like we're getting the service free. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
